

**Associate of Applied Science – Agronomy Industry Management Option
Course and Program Experience and Outcomes Matrix**

Student Learning Outcomes

1. Students will be able to effectively communicate in oral and written form.
2. Students will be able to gather, assimilate, and process information to reach sound logical conclusions in their chosen career pathway.
3. Students will be able to apply economic principles of accounting, marketing and budgeting to agronomy enterprises.
4. Students will be able to exhibit required knowledge and skills consistent with their chosen field of study. (Technical Competence)
5. Learning outcome specific for the Agronomy (Crop Production) Option.
 - a. Students will be able to apply economically sound and environmentally sustainable agricultural crop production practices in the Great Plains.
